

MUSK-IT

CUSTOM SOFTWARE & IT SOLUTIONS

WHAT WE DO

Software & IT, built around your business

Musk-IT is a B2B technology partner. We design custom software tailored to your exact workflows and run the IT that keeps your business moving — from cloud and security to day-to-day support.

Custom Software

ERP, CRM, dashboards and web & mobile apps built around your exact processes.

Integrations & Automation

Connect your existing tools and automate manual, repetitive work.

Cloud & Infrastructure

Setup, migration and scaling on reliable, modern cloud platforms.

Managed IT & Support

Day-to-day IT operations, monitoring and a responsive helpdesk.

Cybersecurity

Security audits, hardening and ongoing protection for your systems.

IT Consulting

Digital transformation guidance and a technology roadmap that fits you.

ERP V6

OUR FLAGSHIP PRODUCT

CONSTRUCTION & EPC ERP

One platform for the full project lifecycle

A complete, multi-tenant ERP for construction and EPC firms — role-based and license-driven, with real-time updates and one-click Excel, Word & PDF exports.

Projects & Buildings

Project setup, scopes, buildings and engineer assignments.

BOQ Management

Bill of quantities, delivery challans & AI-powered BOQ intelligence.

Drawing Tracker

Submissions, revisions, internal reviews & IFC issuance.

Execution Planning

WBS, dependencies, Gantt, S-Curve, EVM & AI forecasting.

Project Planning & PO

PP requests, plans and full purchase-order history.

Quality & Daily Tasks

Quality checks, daily task tracking and smart notifications.

Workflow Studio

Build custom approval workflows — no code required.

Reports & Exports

Automated email reports and Excel / Word / PDF downloads.
